Resource List

Wheelchairs for less resourced settings

The following is a list of wheelchairs that are available for use in less resources settings. The list contains pictures, descriptions, and contact information provided by the wheelchair producers and/or distributors themselves. The list is intended to assist governments, organizations, and individuals who are interested in acquiring wheelchairs designed and produced for use in less resourced settings worldwide.

Contact producers/distributors for updated prices and further details.

Wheelchairs available in and for use in less resourced settings USAID / June 2012
