

TANZANIA

USAID ADVANCING NUTRITION

The Government of Tanzania has demonstrated its commitment to fight malnutrition through a multi-sectoral approach. The presence of the National Multi-sectoral Nutrition Action Plan (NMNAP) has assisted the Government to align efforts to address both direct (nutrition-specific) and underlying (nutrition-sensitive) causes of malnutrition across the country.

Implementation of both nutrition-specific and nutrition-sensitive interventions under the NMNAP is coordinated by the Primer Minister's Office (PMO) with technical support from the Tanzania Food and Nutrition Centre (TFNC). USAID Advancing Nutrition works to improve nutrition coordination and integration through three objectives:

- **Objective 1:** Strengthen the PMO and TFNC to facilitate integration of nutrition-sensitive and nutrition-specific components of the NMNAP across key line ministries.
- **Objective 2:** Support the development of NMNAP II and its Common Results Framework.

- **Objective 3:** Provide targeted technical assistance to USAID Tanzania’s implementing partners.

Activities

- Support PMO and TFNC to provide guidance on planning and budgeting for nutrition-sensitive interventions across key line sectoral ministries.
- Support nutrition capacity building to key sector management teams and nutrition focal persons at each Ministry, Department and Agency.
- Work with PMO and TFNC to support nutrition-sensitive Ministry, Department and Agencies to integrate nutrition into their key documents through both the development and review process.
- Support TFNC to adapt African Nutrition Leadership Program for Tanzania.
- Support PMO in the development of domestic resources mobilization strategy for nutrition.
- Facilitate the development of the nutrition-sensitive component of the NMNAP II.
- Support USAID implementing partners to integrate mainstream nutrition in their respective multi-sectoral programs.

BUDGET \$2.5 million

DURATION

October 2019 – September 2023
